

Global Hide Manager

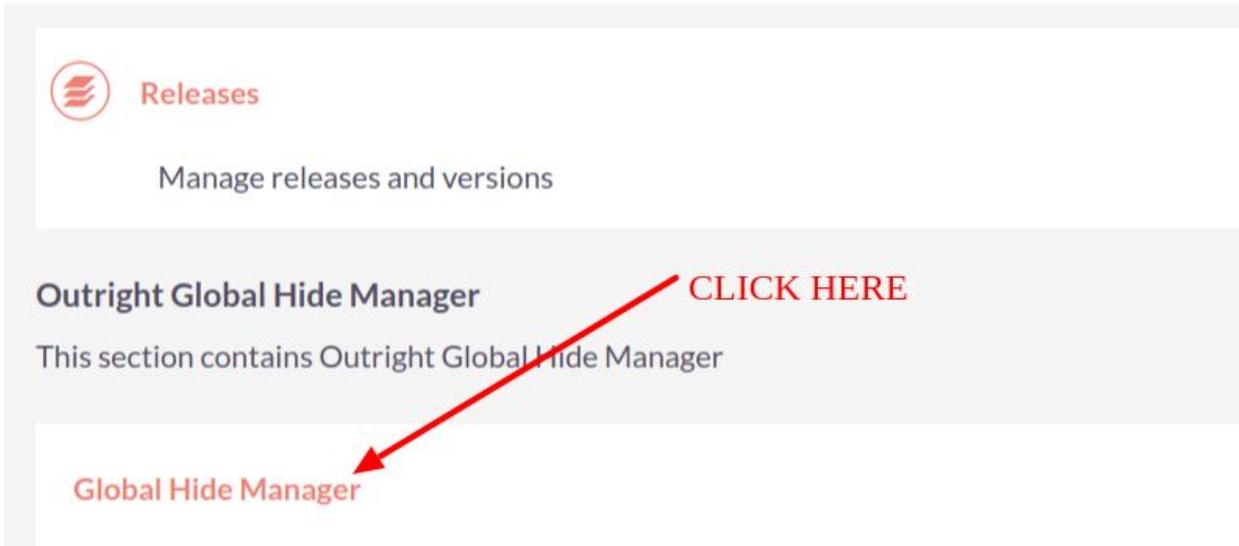

User Guide

User Guide:-

1. Go to the admin section and click on Create Global Hide Manager.

2. Click on create Global Hide Manager.

3. Create a record for [Global Hide Manager](#)

The screenshot shows a 'CREATE' form with a 'BASIC' tab. At the top left are 'SAVE' and 'CANCEL' buttons. The form fields are: 'Name:*' (text input), 'Element ID:' (text input), 'Module Name:' (dropdown menu with 'All' selected), and 'Description:' (text area). On the right side, there is a 'Status:' dropdown menu with 'Active' selected and an 'Element Class:' text input. Red arrows point to these fields with labels: 'Enter Name' points to the Name field, 'Enter element id' points to the Element ID field, 'Enter element class' points to the Element Class field, and 'Select module for which you want to hide buttons/links/any elements.' points to the Module Name dropdown. At the bottom left, there are 'SAVE' and 'CANCEL' buttons.

4. To Hide save and continue Button.

The image shows two side-by-side screenshots of the 'TEST4 » EDIT' form. The left screenshot is labeled 'BEFORE' and shows a button bar with 'SAVE', 'CANCEL', 'SAVE AND CONTINUE', and 'VIEW CHANGE LOG' buttons. A red box highlights the 'SAVE AND CONTINUE' button, with an arrow pointing to it and the text 'Hide this button'. The right screenshot is labeled 'AFTER' and shows the same button bar, but the 'SAVE AND CONTINUE' button is missing. An arrow points to the space where the button was, with the text 'Hide save and continue button'. Both screenshots show an 'OVERVIEW' section with fields for 'Name:*' (test4), 'Website:' (http://), and 'Email Address:' (email@example.com).
